## ENVIRONMENTAL POLICY STATEMENT

Vision Elevators is committed to conducting all construction activities in an environmentally responsible manner. We recognize our responsibility to protect the environment, prevent pollution and minimize the environmental impact of our operations.

To achieve this commitment, we undertake to:

- Comply with all applicable environmental legislation, regulations, permits, client requirements and other obligations relevant to our construction activities.
- Prevent pollution by minimizing waste generation, controlling dust, noise, vibration, emissions and preventing contamination of land and water.
- Use natural resources responsibly by promoting the efficient use of water, fuel, electricity and construction materials.
- Implement waste management practices that prioritize waste reduction, reuse, recycling and lawful disposal of waste.
- Protect biodiversity, ecosystems and sensitive environmental areas that may be affected by our construction activities.
- Identify, assess and manage environmental risks associated with our operations and implement suitable control measures.
- Ensure that employees, contractors and sub-contractors are informed of their environmental responsibilities and receive appropriate training and awareness.
- Maintain emergency preparedness measures to respond effectively to environmental incidents such as fuel spills, chemical spillages and pollution events.
- Monitor environmental performance and continually improve our environmental management practices and objectives.
- Promote environmental awareness among employees, contractors, clients, suppliers and other interested parties.

Management accepts overall responsibility for implementing this policy and ensuring adequate resources are available to achieve its objectives.

This policy shall be communicated to all employees, contractors and shall be reviewed annually to ensure continued suitability and effectiveness.

Signed Commitment
